Upon Customer's request, and subject to the confidentiality obligations set forth in the Agreement, Retool shall make available to Customer (or Customer's independent, third-party auditor) information regarding Retool's compliance with the

obligations set forth in this DPA in the form of the third-party certifications and audits set forth in the Security Practices Page. Retool shall also permit and contribute to audits of the processing activities covered by this DPA, at reasonable intervals or: (a) if there are indications, in Customer's reasonable opinion, of non-compliance with this DPA; (b) where requested by a Supervisory Authority. To this end, Customer may contact Retool in accordance with notice provisions in the Agreement to request an on-site audit of Retool's procedures relevant to the protection of Relevant Personal Data, but only to the extent required under Data Protection Laws. Before the commencement of any such on-site audit, Customer and Retool shall mutually agree upon the scope, timing, and duration of the audit, in addition to the reimbursement rate for which Customer shall be responsible. - 5.2 **Data Protection Impact Assessment.** Where applicable and upon Customer's request, Retool shall provide Customer with reasonable cooperation and assistance needed to fulfil Customer's obligation under the GDPR to carry out a data protection impact assessment related to Customer's use of the Services, to the extent Customer does not otherwise have access to the relevant information, and to the extent such information is available to Retool.
